**The Institute of Cognitive Science (IKW) presents:**

LEARNING IN BIOLOGICAL AND ARTIFICIAL SYSTEMS

COGNITIVE SCIENCE
LIGHTNING TALKS

JUNE 18, 2025
12:15–13:45, R: 66/E33

Nicole Gotzner	Learning whom to trust
Simone Pika	Gestural acquisition: From chimps and homesigners
Tobias Thelen	From Periods to Peak Performance: Learning in Tune with Your Cycle
Peter König	Embodied Cognition
Lilian Weber	Learning: fast and slow, and under ketamine (digital talk)
Tim Kietzmann	Do embodied agents learn to see the world differently? Back to the 60s, but with robotic arms.
Ulf Krumnack	Deep Learning in the Musical Domain
Pascal Nieters	How to (try to) replace your theoretical scientist
Gordon Pipa	Why spikes?
Till Mossakowski	Neuro-symbolic integration for ontology-based classification of structured objects
